this book provides an introduction to the sociological study of midwifery the readings have been selected to highlight the interplay between midwifery and medicine reflecting the medicalization of childbirth it highlights the major themes in both a historical and a current context as well as

western and non western societies two major themes underlie the organization of this book that the conception of midwifery must be broadened to encompass a sociological perspective and that the ongoing trend toward the medicalization of midwifery is crucial to an understanding of the historical current and future status of midwifery by medicalization of childbirth and midwifery the author mean the increasing tendency for women to prefer a hospital delivery to a home delivery the increasing trend toward the use of technology and clinical intervention in childbirth and the determination of medical practitioners to confine the role played by midwives in pregnancy and childbirth if any to a purely subordinate one

now in its 5th edition midwifery preparation for practice continues to present a global model of midwifery best practice that is supported by a range of examples from the australian new zealand and international midwifery contexts endorsed by the australian college of midwives and the new zealand college of midwives the text continues to reinforce the established principles of midwifery philosophy and practice that of midwives working in partnership with women in woman centred models or midwife led care this focus is what sets this text apart from other physiology based midwifery texts making it a highly valued resource for students and practicing midwives alike the highly esteemed team of editors once again lead a group of internationally recognised leaders in midwifery to share their knowledge and expertise in midwifery practice education research and regulation across australia new zealand and internationally aligned to local and international midwifery standards for practice and guidelines endorsed by the australian college of midwives and the new zealand college of midwives presented in 2 volumes for ease of use videos to support learning new chapters sustainability and environmental health care ethical frameworks for practice updated midwifery guidelines and practice examples throughout

mayes midwifery is a core text for students in the uk known and loved for its in depth approach and its close alignment with curricula and practice in this country the sixteenth edition has been fully updated by leading midwifery educators sue macdonald and gail johnson and input from several new expert contributors ensures this book remains at the cutting edge the text covers all the main aspects of midwifery in detail including the various stages of pregnancy possible complexities around childbirth and psychological and social considerations related to women s health it provides the most recent evidence along with detailed anatomy and physiology information and how these translate into practice packed full of case studies

reflective activities and images and accompanied by an ancillary website with 600 multiple choice questions and downloadable images mayes midwifery makes learning easy for nursing students entering the profession as well as midwives returning to practice and qualified midwives working in different settings in the uk and overseas expert contributors include midwifery academics and clinicians researchers physiotherapists neonatal nurse specialists social scientists and legal experts learning outcomes and key points to support structured study reflective activities to apply theory to practice figures tables and breakout boxes help navigation and revision associated online resources with over 600 mcqs reflective activities case studies downloadable image bank to help with essay and assignment preparation further reading to deepen knowledge and understanding new chapters addressing the issues around being a student midwife and entering the profession more detail about fgm and its legal implications as well as transgender binary individuals in pregnancy and childbirth new information on infection and control following from the covid 19 pandemic enhanced artwork program

midwifery preparation for practice 2e is the only text which reflects the historical and socio political environment in which midwives in australia and new zealand practice in addition it is the only text which incorporates the philosophy and standards endorsed by new zealand and australian colleges of midwives while also focusing on the partnership between midwives with women and the woman centred model of midwifery care the second edition has built on the existing philosophy and structure of midwifery preparation for practice though with a greater emphasis on the development of critical thinking and researching skills key chapters have been re written to reflect recent changes in government legislation while current research and pertinent examples are included throughout the text this new edition is supported by a comprehensive suite of resources for both instructors and students using the evolve website as a platform these ancillaries will re enforce the critical thinking elements for students with interactive case studies and scenario based learning exercises as well as the multiple choice questions

the world s most popular midwifery textbook presents practical and comprehensive coverage of anatomy and physiology as well as the important topical issues of midwifery practice the expert editors have added an impressive team of contributors literature reviews and references for further reading new issues covered include risk management complementary therapies research and independent practice

this book critically analyzes the place of caesarean in childbearing at the beginning of the twenty first century it questions the changes that are taking place in childbirth and in particular the effects and implications of an increase in caesarean births this controversial work by a practising midwife and researcher includes discussion of the context of the operation and description of it health systems around the world and their caesarean incidence rates decision making and cultural medical constraints the short and long term implications of caesarean for baby and mother using up to date research rosemary mander bases her argument on a firm evidence base and argues that the rapidly rising caesarean section rate may not be for the benefit of either the woman giving birth or her baby rather the beneficiaries may actually be those professionals whose investment is in extending the range of their influence and thus increasing the medicalization of normal life

perfect for bachelor of midwifery students postgraduate midwifery students combined nursing degree students combined nursing degree students midwifery preparation for practice 3e is the definitive midwifery text for australian and new zealand midwifery students the third edition continues to reinforce the established principles of midwifery philosophy and practice that of working in partnership with women and midwifery autonomy in practice and from this perspective presents the midwife as a primary healthcare practitioner it carefully examines the very different maternity care systems in australia and new zealand exploring both autonomous and collaborative practice and importantly documents the recent reforms in australian midwifery practice midwifery preparation for practice 3e places women and their babies safely at the centre of midwifery practice and will guide inform and inspire midwifery students recent graduates and experienced midwives alike key contributors from australia and new zealand critical thinking exercises and research activities midwifery practice scenarios reflective thinking exercises and case studies instructor and student resources on evolve including test bank questions answers to review questions and powerpoint presentations new chapter on models of health increased content on cultural considerations human rights sustainability mental health obesity in pregnancy communication in complex situations intervention complications in pregnancy and birth and assisted reproduction midwifery practice scenarios throughout
